ACES (Computer Engineering Students' Association)

"The ACES committee is for the students, by the students, to the students".

This student association formed in the July 2023.The main motive behind forming this association is to improve the technical and non-technical skills of the students which are required beyond academics. The ACES committee members are elected by the students, members organizes technical and social awareness programs. Through this association our program has provided a platform for the student to develop ethical values, team management. This can be achieved by arranging various technical and non-technical events by the students. There is control of a faculty member over the association.

Activities organized/managed By ACES:

- Publication of Departmental Newsletter
- Teachers Day Celebration
- Engineer's Day Celebration
- Guest Lectures and Seminars
- Personality development programs
- Aptitude tests
- Group Discussions
- Cultural and Social Awareness Programs
- Career guidance and personality development workshops
- Farewell to final year students
